

Knott-Avonride Ltd offers, within its range of Type Approved overrun couplings, a versatile and comprehensive range of Pole / Square Tube Couplings.

Our range is from 375kg right up to 3500kg, utilising 60mm, 70mm, 80mm, 100mm and 120mm box sections. (A 90mm variant is possible.)

-))) 375kg to 750kg on 60mm & 70mm square tube
-))) 750kg to 1300kg on 60mm, 70mm & 80mm square tube
-))) 1100kg to 1700kg on 60mm & 70mm square tube
-))) 1100kg to 2000kg on 80mm & 100mm square tube
-))) 1600kg to 3000kg on 80mm & 100mm square tube
-))) 2750kg to 3500kg on 120mm square tube

If you have a requirement and are unsure which model will suit you then please do not hesitate to contact us on **01283 531541** or sales@knottuk.com and we will be happy to help.

Complete range of **heads and towing eyes** (30mm, 40mm, 50mm, 76mm NATO and 40mm DIN).

All pole couplings come fitted with **skids** and Knott's own high performance **overrun damper**.

A variety of **jockey wheel mounting brackets** are also available throughout the range.

Knott couplings are, of course, perfectly compatible with the **Knott brakes!**

We are happy to help with **Type Approval documentation** where our couplings are introduced.
